DETAILED ACTION

1. This office action is in response to Applicant's after final amendment filed on 3 March 2009.

Allowable Subject Matter

2. Claims 2-7 and 9-11 are allowed. Claims 10 and 11 are the independent claims.
3. The following is an examiner's statement of reasons for allowance:

The closest prior art of record is U.S. Patent 5,572,398 to Federlin, which was applied to the claims in the office action mailed 3 December 2008. Suffice it to say, the patent to Federlin at least does not disclose "wherein the adhesive layer is made of the silicone-based adhesive agent, and after use, the annular electrode member, the inner electrode member, and the outer electrode member can be separated from the mounting surface by removing the adhesive layer using a release agent" as claimed in independent claim 10, or "wherein the adhesive layer is made of the polyvinyl butyral adhesive agent, and after use, the annular electrode member, the inner electrode member, and the outer electrode member can be separated from the mounting surface by removing the adhesive layer heating at a temperature of about 150° C" as claimed in independent claim 11, and as such does not anticipate the instant invention as disclosed in independent claims 10 and 11.

Furthermore, there is no combinable teaching in the prior art of record that would reasonably motivate one having ordinary skill in the art to so modify the teachings of Federlin, and thus, for at least the foregoing reasoning, the prior art of record does not render obvious the present invention as set forth in independent claims 10 and 11.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to ERIC A. GATES whose telephone number is (571)272-5498. The examiner can normally be reached on Mon-Thurs 8:45 - 6:15.
